

WORKSHEET OUTPOST | Grade 2 Math

Explain a two-digit addition method

OW-G2-009 | Five questions

Success criteria
I can use tens and ones to add or subtract within 100.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Lee says 33 + 17 = 60. Check with a model and explain the mistake.

2. Lee says 42 + 28 = 80. Check with a model and explain the mistake.

3. Lee says 51 + 29 = 90. Check with a model and explain the mistake.

4. Lee says 63 + 21 = 94. Check with a model and explain the mistake.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
