

WORKSHEET OUTPOST | Grade 2 Math

Explain a money decision

OW-G2-109 | Five questions

Success criteria
I can show two different ways to make the same amount with coins.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Find two different coin combinations worth 20 cents. Label the coins.

2. Find two different coin combinations worth 25 cents. Label the coins.

3. Find two different coin combinations worth 30 cents. Label the coins.

4. Find two different coin combinations worth 35 cents. Label the coins.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
