

WORKSHEET OUTPOST | Grade 2 Math

Choose inches, feet, or yards

OW-G2-055 | Five questions

Success criteria
I can start at zero, measure the length, and name the unit.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Choose inches, feet, or yards to measure a crayon.

2. Choose inches, feet, or yards to measure a playground.

3. Measure a desk with a ruler. Record its length in inches.

4. Measure a classroom wall with an adult. Write the length in feet or yards.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
